SYMPOSIUM 1st-2nd May 2026

Department of Urology, Faculty of Medicine Universitas Brawijaya
Saiful Anwar General Hospital and
Grand Mercure Malang Mirama, Malang, East Java, Indonesia

FIRST ANNOUNCEMENT

Welcome Message

Dear Colleagues and Friends,

On behalf of the Organizing Committee, it is our great pleasure to welcome you to the **19th Malang Continuing Urology Education (MCUE) 2026**, which will be held on **April 11th and April 27th-30th, 2026** for the Workshop sessions, and on **May 1st-2nd, 2026** for the Symposium. These events will take place at the Department of Urology Faculty of Medicine Universitas Brawijaya Saiful Anwar General Hospital and Grand Mercure Malang Mirama, Malang, East Java, Indonesia

The Malang Continuing Urology Education (MCUE) is an annual event organized by the Malang Branch of the Indonesian Association of Urologists (IAUI Cab. Malang). Since its inception in 2007, MCUE has continued to evolve and expand, making 2026 the nineteenth year of its implementation.

In line with the rapid advancements in medical science and technology, particularly in the field of urology, the 19th MCUE adopts the theme **"Bridging Generations: Guiding the Next Generation Urologist."** This theme reflects our commitment to fostering holistic urological services—both in patient management and in healthcare systems—while equipping future urologists to meet evolving clinical challenges.

The 19th MCUE will span six days and will feature a comprehensive program consisting of workshops, seminars, and concluding sports activities.

The workshop series at MCUE 2026 includes the **Ultrasound Workshop, Endo-Urology Week Workshop, and General Laparoscopy and Turb En Bloc Workshop**. These sessions are designed to enhance participants' practical skills, deepen their understanding of procedural techniques, and strengthen their clinical competencies through hands-on training and interactive learning experiences.

Additionally, we are pleased to present the **MCUE Cinema**—one of the event's most anticipated highlights—featuring video screenings of urological procedures and exceptional case recordings presented directly by experts. Participants will have the opportunity to observe, analyze, and engage in interactive discussions, offering a rich and highly effective visual learning platform.

We warmly encourage all participants to submit their scientific manuscripts and join the **Scientific Paper Competition**, a distinguished platform that celebrates innovation and academic excellence. Please visit www.mcue.org for detailed information and updates.

Mark your calendars and join us in the charming and culturally vibrant city of Malang, where knowledge, collaboration, and inspiration converge. We look forward to welcoming you to an event that promises to be enlightening, memorable, and truly exceptional.

See you in Malang!

dr. Edi Wibowo, Sp.U, FICS
Chairman of the Organizing
Committee

- Live Surgery: Endo-Urology
- Patient Positioning in PCNL: Supine vs Prone
- How to Perform Good Puncture in PCNL: Techniques and Approach
- How to Start Prostate Enucleation in Daily Practice
- Learning Curve in Mastering Prostate Enucleation
- Optimizing Stone Free Rate in Fluoroless PCNL
- Upper Tract Stone in Pediatric: What to do
- Tips and Tricks in Learning Prostate Enucleation
- How to Perform Perfect Morcelation for Prostate Enucleation
- Laser Selection for Prostate Enucleation
- Mastering Optimal Stone Fragmentation in Upper Urinary Stone (PCNL & RIRS)
- FANS vs DIS for better outcome in stone surgery
- Upper Pole Puncture: Challenges and How to Overcome it
- ECIRS or Multi Puncture PCNL or Laparoscopic Approach for Complex Renal Stone
- ESWL, RIRS, or mPCNL in Lower Pole Stone
- RIRS Preparation: What Should We Prepare for Better Patient Outcome?

General Laparoscopy Workshop (Hands-on)

- Learning Curve in Mastering Laparoscopy for Urologist
- How Prepared and Deal for Complication in Laparoscopy Surgery
- Laparoscopy Indication in Urology Field
- The Future of Robotic Laparoscopy Usage in Urology Field
- Live Surgery: General Laparoscopic Diversion (4 Model Animals)
 - Ureter identification
 - Pyelolithotomy, Nephrectomy
 - Cystectomy
 - CAPD
 - Injury of Vena Cava or Bowel segment

En-Bloc Resection & NBI Workshop (Hands-on)

- Basic principles in bladder cancer management
- Cystoscopy and enhanced imaging for bladder cancer detection
- Monopolar - Bipolar TURBT & En-Bloc Resection of bladder tumor
- Live Surgery: General Laparoscopic Diversion (4 Model Animals)
- Live Surgery: En Bloc Resection & NBI of Bladder Tumor

Authorship

Each quoted author should have contributed substantially to the represented work in terms of conceptual design or analysis writing of article and final approval of the article in order to take public responsibility for the content.

Abstract Guideline

Size

The size of abstracts not more than 300 words and limited to 3,000 characters (including title, body of abstract, spaces tables and graphics). Every picture / graphic count for 500 characters.

Title

The title should clearly define the topic. Do not identify your institution in the title. There is no maximum length for the title. However, the characters in the title are included in your total character count. The first letter of the title will automatically begin with a capital letter. Do type the abstract and title in small letters, except for abbreviations. Do not type the abstract title in capital letters.

Authors

Type full family name and first name of all authors, only omitting any titles, degrees and institutional affiliations. It is advisable to check the correct spelling of the family name and initials with each author. Please check that for authors from the same institution, the name of institution is written in the exact same way to avoid the creation of extra affiliations, which are in fact identical

Affiliation

Type the name of the institution, department, city and country in English.

Body of The Abstract

The following headings have already been formatted for you and should not be entered in the text fields again:

- Introduction & objectives
- Materials & methods
- Results
- Conclusion

State the objective of the study, describe the material and methods, summarize the results presenting sufficient details to support of the conclusions reached (not acceptable to state: "The results will be discussed"). Use number for numbers and only very well-known abbreviations e.g. kg, MRI etc. If you must use other abbreviation you must explain it the first time it appears. You can use the special keys to insert tables, pictures or specific characters.

Proof Reading

Verify that your abstract is correct and read the proof carefully that will be automatically shown after you have inserted all data. Keep a printout for your own records.

Editing

Abstract bodies will be published as submitted, except for a simple English spelling check. After submission deadline there is no possibility to edit the abstract anymore.

Submission Deadline

Deadline for abstract submission is March 20th, 2026 at 12PM local time.

Withdraw Abstract(s)

In case you want to withdraw your abstract after submission, please send an email before April 1st, 2026 to mcue2026@pharma-pro.com
